FOLASHADE OMOLOJA

Software developer

I am a purpose-driven and dependable individual who excels both as a self-starter and a team player. With a keen eye for detail and strong organizational skills, I have a proven ability to convert design mockups into functional HTML and CSS code, utilizing JavaScript for added functionality. I possess expertise in React.js, Next.js, and TypeScript. I thrive in dynamic environments and embrace challenges that allow me to expand my knowledge and skills. As a fast learner and enthusiastic team player, I am ready to contribute to the success of your organization.

Experience

2023-01 – 2023-06

FRONT-END DEVELOPER
Hitec City Technologies

Acquired Skills: React js, Next js, Typescript, Styled Components, Tailwind Css, Redux, React Hooks, soft skills

- Developed reusable components with React.js, utilizing tools such as Next.js, TypeScript, React Table, styled-components, Tailwind CSS, and React hooks.
- Built functional pages for the "Lenders NG" website, meeting project requirements and deadlines.
- Ensured responsive designs and optimized performance for seamless user experiences across devices.
- Collaborated closely with designers and stakeholders to translate design mockups into pixel-perfect web interfaces.
- Actively participated in Agile development processes and conducted code reviews to maintain code quality.
- Demonstrated problem-solving skills, actively learned new technologies, and effectively collaborated with cross-functional teams for integrated and efficient development workflows.

2022-08 – 2023-03

WOMEN TECHSTERS FELLOW
Women Techsters Fellowship – Tech4dev

Acquired Skills: HTML5, CSS, Git, JavaScript, React.js, API consumption, Web Accessibility, soft skills

- Participated in software development project-based training.

Next.js

Git

React.js

Agile Methodologies

Social Media management

Content Creation

Networking and relationship building

Ability to learn on the job

- Collaborated with a team of developers and designers to build modern responsive web applications using best practices.
- Developed semantically structured web applications such as Notelify- an application for taking notes, TourIt- a travel blog.
- Engaged in a Tech advocacy community project.
- Developed a modern, responsive web application called "Planet Protectors" as the front end developer for a capstone project, collaborating with a team of designers, data scientists, and project managers. Leveraged technologies such as React.js, Bootstrap, and React Table to create a user-friendly interface and enhance functionality. The application aimed to address the problem of plastic recycling and effectively reduce environmental pollution caused by plastic.

2022-06 –
2022-11

MARKETING INTERN
Crypto Coins Vip

Aquired Skills: Content Creation, Research and analysis, Writing and communication, Digital marketing
